Author Index

Azam-Ali, S.N., *see* Matthews, R.B. et al.
Batugal, P.A., de la Cruz, A., Libunao, W.H. and Khwaja, A.M.
Intercropping potato with maize in lowland Philippines 83
Bebbington, A.J., *see* Rhoades, R.E. and Bebbington, A.J.
Board, J.E., Harville, B.G. and Saxton, A.M.
Growth dynamics of determinate soybean in narrow and wide rows at late planting dates 203
Cadavid L., L.F., *see* El-Sharkawy, M.A. et al.
Cock, J.H., *see* El-Sharkawy, M.A. et al.
De la Cruz, A., *see* Batugal, P.A. et al.
Delwar Hossain, A.H.M., *see* Imam, S.A. et al.
Demagante, A.L., *see* Vander Zaag, P. and Demagante, A.L.
El-Sharkawy, M.A., Cock, J.H., Lynam, J.K., Hernàndez, A.D.P. and Cadavid L., L.F.
Relationships between biomass, root-yield and single-leaf photosynthesis in field-grown cassava 183
Govinden, N.
Intercropping of sugar-cane with potato in Mauritius: A successful cropping system 99
Harris, P.M.
Potato crop radiation use: A justification for intercropping 25
Harville, B.G., *see* Board, J.E. et al.
D.P. Hernàndez, A.D.P., *see* El-Sharkawy, M.A. et al.
Ifenkwe, O.P. and Odurukwe, S.O.
Potato/maize intercropping in the Jos Plateau of Nigeria 73
Imam, S.A., Delwar Hossain, A.H.M., Sikka, L.C. and Midmore, D.J.
Agronomic management of potato/sugarcane intercropping and its economic implications 111
Jieming, L. and Midmore, D.J.
A review of potato intercropping practices in western Hubei, China 41
Khawaja, A.M., *see* Butagal, P.A. et al.
Kiniry, J.R., *see* Stockle, C.O. and Kiniry, J.R.
Kirby, E.J.M.
Co-ordination of leaf emergence and leaf and spikelet primordium initiation in wheat .. 253
Kuruppuarachchi, D.S.P.
Intercropped potato (*Solanum* spp.): Effect of shade on growth and tuber yield in the northwestern regosol belt of Sri Lanka 61
Libunao, W.H., *see* Batugal, P.A. et al.
Lynam, J.K., *see* El-Sharkawy, M.A. et al.
Matthews, R.B., Reddy, D.M., Rani, A.U., Azam-Ali, S.N. and Peacock, J.M.
Response of four sorghum lines to mid-season drought
I. Growth, water use and yield 279
Matthews, R.B., Azam-Ali, S.N. and Peacock, J.M.
Response of four sorghum lines to mid-season drought
II. Leaf characteristics 297

Midmore, D.J.
Introduction: Intercropping of the potato in the tropics 1
Scientific basis and scope for further improvement of intercropping with potato in the tropics 3
see also Jieming, L. and Midmore, D.J.
see also Imam, S.A. et al.
Morris, R.A., *see* Siri-Udompas, C. and Morris, R.A.
Muchow, R.C.
Effect of nitrogen on partitioning and yield in grain sorghum under differing environmental conditions in the semi-arid tropics 265
Nankar, J.T.
Scope and prospects for intercropping of potato with sugarcane in Maharashtra State, India 123
Odurukwe, S.O., *see* Ifenkwe, O.P. and Odurukwe, S.O.
Peacock, J.M., *see* Matthews, R.B. et al.
Peltonen-Sainio, P.
Morphological and physiological characters behind high-yielding ability of oats (*Avena sativa*), and their implications for breeding 247
Potts, M.J.
Influence of intercropping in warm climates on pests and diseases of potato, with special reference to their control 133
Rani, A.U., *see* Matthews, R.B. et al.
Reddy, D.M., *see* Matthews, R.B. et al.
Rhoades, R.E. and Bebbington, A.J.
Mixing it up: Variations in Andean farmers' rationales for intercropping of potatoes 145
Saxton, A.M., *see* Board, J.E. et al.
Sikka, L.C., *see* Imam, S.A. et al.
Siri-Udompas, C. and Morris, R.A.
Effects of crop proportion on intercropped upland rice and cowpea. 2. Nitrogen yields . 233
Stockle, C.O. and Kiniry, J.R.
Variability in crop radiation-use efficiency associated with vapor-pressure deficit 171
Sun, Y.W., *see* Sung, F.J.M. and Sun, Y.W.
Sung, F.J.M. and Sun, Y.W.
Seasonal patterns of nitrate reductase and nitrogenase activities in *Arachis hypogaea* 215
Vander Zaag, P. and Demagante, A.L.
Potato (*Solanum* spp.) in an isohyperthermic environment.
V. Intercropping with maize 157

Subject Index

Arachis
Nitrate reductase and nitrogenase activities in Arachis 215
Avena
Characters behind high-yielding ability: Implications for breeding 247
Breeding
Characters behind high-yielding ability of *Avena*: Implications for breeding 247
Cassava, *see Manihot*
Cowpea, *see Vigna*
Cultivar differences, *see* Variety trials
Drought, *see* Water regime, influence of
Economics
Management of potato/sugarcane intercropping and its economic implications 111
Variations in Andean intercropping of potatoes 145
Environmental conditions, influence of
Effect of nitrogen on sorghum under differing environmental conditions 265
Fertilizers, *see* Nutrient dynamics
Glycine
Intercropping with potato in China 41
Growth of soybean in narrow and wide rows at late planting dates 203
Intercropping
Introduction: Intercropping of the potato in the tropics 1
Scientific basis and scope for intercropping with potato in the tropics 3
Radiation use: A justification for intercropping 25
Potato intercropping in China 41
Intercropped potato: Effect of shade on growth and yield in Sri Lanka 61
Potato/maize intercropping in Nigeria 73
Intercropping potato with maize in lowland Philippines 83
Intercropping sugar-cane with potato in Mauritius 99
Management of potato/sugarcane intercropping and its economic implications 111
Intercropping potato with sugarcane in India 123
Influence of intercropping in warm climates on pests and diseases of potato 133
Variations in Andean intercropping of potatoes 145
Potato in an isohyperthermic environment. V. Intercropping with maize 157
Effects of crop proportion on intercropped rice and cowpea. 2. Nitrogen yields 233
Ipil-ipil, *see* Leucaena
Irrigation, *see* Water regime, influence of
Leucaena
Intercropped potato: Effect of shade on growth and yield in Sri Lanka 61
Maize, *see Zea*
Management practices, effects of
Intercropped potato: Effect of shade on growth and yield in Sri Lanka 61
Intercropping potato with sugarcane in India 123
Potato in an isohyperthermic environment. V. Intercropping with maize 157
Growth of soybean in narrow and wide rows at late planting dates 203
Manihot
Biomass, root yield and photosynthesis relationships 183

Nitrogen, *see* Nutrient dynamics
Nutrient dynamics
Potato/maize intercropping in Nigeria 73
Nitrate reductase and nitrogenase activities in Arachis 215
Effects of crop proportion on intercropped rice and cowpea. 2. Nitrogen yields 233
Effect of nitrogen on sorghum under differing environmental conditions 265
Oat, *see* Avena
Oryza
Effects of crop proportion on intercropped rice and cowpea. 2. Nitrogen yields 233
Peanut, *see Arachis*
Pests, weeds and diseases
Influence of intercropping in warm climates on pests and diseases of potato 133
Planting practices, *see* Management practices, effects of
Potato, *see Solanum*
Radiation use
Radiation use: A justification for intercropping 25
Radiation-use efficiency associated with vapor-pressure deficit 171
Rice, *see Oryza*
Row spacing, *see* Management practices, effects of
Saccharum
Intercropping sugar-cane with potato in Mauritius 99
Management of potato/sugarcane intercropping and its economic implications 111
Intercropping potato with sugarcane in India 123
Shading, *see* Management practices, effects of
Sorghum
Potato in an isohyperthermic environment. V. Intercropping with maize 157
Effect of nitrogen under differing environmental conditions 265
Response of sorghum to drought
I. Growth, water use and yield 279
II. Leaf characteristics 297
Soybean, *see Glycine*
Sugarcane, *see Saccharum*
Triticum
Leaf emergence and leaf and spikelet primordium initiation in wheat 253
Vapor pressure deficit, *see* Water regime, influence of
Variety trials
Biomass, root yield and photosynthesis relationships in cassava 183
Nitrate reductase and nitrogenase activities in *Arachis* 215
Potato/maize intercropping in Nigeria 73
Effects of crop proportion on intercropped rice and cowpea. 2. Nitrogen yields 233
Characters behind high-yielding ability of *Avena:* Implications for breeding 247
Leaf emergence and leaf and spikelet primordium initiation in wheat 253
Response of sorghum to drought
I. Growth, water use and yield 279
II. Leaf characteristics 297
Zea
Intercropping with potato in China 41
Potato/maize intercropping in Nigeria 73
Intercropping potato with maize in lowland Philippines 83
Potato in an isohyperthermic environment V. intercropping with maize 157
